BullMoney Premium - Your Gateway to Trading

Most people come to the markets chasing signals, hype, and quick wins. That's why 90% of traders fail. At BullMoney, we do things differently. We don't hand you fish we teach you to catch them, sharpen the spear, and own the ocean.

BullMoney Premium is not a signal group. It's a mentorship ecosystem built for traders who are serious about becoming skilled, independent, and consistently profitable. Inside Premium, every lesson, every stream, and every setup is designed with one goal: to rewire the way you see the markets forever.

What Makes BullMoney Premium Different?

**PREMIUM
ACCESS**

Most groups sell signals. We build independent traders. BullMoney Premium focuses on education, psychology, and strategy, not hype.

- Smart Money Edge – Learn how institutions trade, not retail mistakes.
- Clarity Over Noise – Every setup is explained with logic, not guesswork.
- Mindset & Risk First – Discipline and risk management drive consistency.
- Real Mentorship – Direct guidance, live streams, and a high-level community you can chat with on telegram

BullMoney Premium is where traders move from chasing tips to mastering the craft.

Add BullMoney Indicators (Mobile & PC)

Open any chart → Indicators (PC top bar | Mobile

- FREE INDICATOR : <https://www.tradingview.com/script/CaYXTswS-BULLMONEY/>
- PREMIUM INDICATOR: <https://www.tradingview.com/script/OCrInl1O-BULLMONEY-PREMIUM/>

Steps:

1. Open each link while logged into TradingView.
2. Click Add to favorites OR add to chart (★).
3. Go back to your chart → Indicators → Favorites → select BULLMONEY.
4. The overlay appears instantly.
5. Save the layout

How to Use the Two Platforms (Simple Workflow)

- TradingView = Analyze with BullMoney indicators.
- MT5 (XM) = Execute orders (Buy/Sell, SL, TP).
- Flow: HTF bias → BullMoney confluence → place trade on MT5 → manage risk.

Tip: Keep TradingView open on PC for analysis, MT5 open on mobile for execution.

QUICK TROUBLESHOOTING

- “Authorization failed” on MT5: Wrong password or server. Reset in <https://my.xm.com> and re-select the exact server (e.g., XMGlobal-MT5 2/5/...).
- Can’t find BullMoney on TradingView: Make sure you’re logged in, then hit each script link again and tap Add to favorites.
- No symbols in MT5: Tap + in “Quotes” → add XAUUSD, BTCUSD, etc.
- Spreads look big: That’s normal at session open/news. Use limit orders and stick to your risk plan.
- Indicator looks cluttered: On TradingView, right-click chart → Reset chart → add BullMoney again.
